

# The "Next Generation"

The Next Generation of Freight Elevator Doors

## Gate Drive Unit

*COURION's "Next Generation" of freight elevator gates eliminates parts, improves performance and durability, and substantially reduces installation time. The "Q" Style Gate Drive Unit is part of COURION's new generation of freight elevator door equipment.*

**EASY TO INSTALL.** The "Q" Style Gate Drive Unit was designed for easy installation. The Gate Drive Unit mounts at the top of the Gate Column using three (3) bolts in pre-drilled mounting slots. A belt tensioner allows for easy adjustment.

**RUGGED.** The "Q" Style Gate Drive Unit combines the reliability of Courion's torque gate motor, with a heavy duty steel frame and sealed ball bearings, to create a Gate Drive Unit that has no equal in the industry.
