

The "Next Generation"

The Next Generation of Freight Elevator Doors

LF96 Guide Shoe

Courion finally brings freight door guide shoes out of the Stone Age. The Courion LF96 Guide Shoe has time-saving features that are not available anywhere else in the industry.

INSTALLS QUICKLY. Composite design means no more shims or small shoe pieces.

LASTS LONGER. Molybdenum surfaces withstand loss of lubrication. Hardened wear strips are built-in.

QUIET. Low friction-bearing surfaces eliminate metal to metal clattering.

AMBIDEXTROUS. One model fits both left and right hands.

RETROFITABLE. Replaces almost all standard Courion door and gate guide shoes.

APPROVED BY UL. Can be used on all COURION labeled freight elevator doors.
